Attn: Mrs. Pat Paxton

Dear Pat:

On 2/3/98, we filed one continuation application and two divisional applications with the Patent Office. All three applications were contained in one large box, and were filed via Express Mail, label no.: EM36656657. A copy of the Express Mail label is attached as Exhibit 1. We did not receive the return receipt associated with this mailing.

We did, however, receive back self-addressed, stamped post cards bearing the date stamp of the USPTO Mailroom acknowledging receipt by the PTO of the Feb. 3, 1998 mailing. These postcards did not contain the serial numbers for these applications.

On February 8, 1998, I spoke with Ms. Jay, of the Applications Branch concerning the failure of the postcards to contain the application serial numbers. At Ms. Jay's request, I memorialized our telephone conversation in a telefax, a copy of which is attached as Exhibit 2.

To date, we have not received any word from Ms. Jay regarding this matter, nor have we received filing receipts for the three subject applications.

Would you please inquire as to the status of this matter. Powers to Inspect relative to these three applications are enclosed for your convenience. Please let me know if you require any further information and/or documentation in order to investigate this matter.

Sincerely,

Lisa Curtin
Legal Assistant

The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations, especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR Parts 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(c).
